

Notes and Eligibility requirements for Reading Courses

Topics for Reading Courses must be outside of current course offerings

Not available for cr/ncr

Student must be enrolled in a Mathematics Major or Specialist program.

May take ONE reading course per semester.

Minimum CGPA of 3.0 in Math courses required.

Normally, the students' year of study is the year the reading course will be recorded at. So, if a student is in third year, the reading course will be MAT395H1 or MAT396H1.

Supervisor can be from another department, however then the student needs a secondary/nominal Supervisor from the Math department.
